

Transforming Food Systems

Greetings and thanks for joining us for our winter webinar series to engage in the issues we work on and care about – healthy food incentives, healthy food in institutions, and healthy food systems policy! We heard from special local and national guest panelists about how Nourish Colorado, along with so many others across the country, are creating multiple wins and strengthening food environments from the consumer - to the local producer - to the economy. [Check out this compelling three-part webinar series](#) and share out with your networks!

Q&A and resources

The institutions and policy webinars were packed with so much great content and we didn't get a chance to respond to the many questions coming in through the chat. We've answered your questions and want to [share them back with you here!](#)

This can't be done without you!

To continue to support and expand the work Nourish Colorado is doing, [please consider making a contribution](#). We appreciate you and greatly value our partnership. Stay tuned for upcoming virtual events and future conversations hosted by Nourish Colorado!

Sincerely,
Nourish Colorado Team
